CAREER OBJECTIVE

Seeking a full-stack development role where I can contribute to scalable MERN-based applications and grow professionally.

EXPERIENCE

MERN Stack Intern

NovaNectar Services Pvt. Ltd. — Onsite (Dehradun)

September 2025 – March 2026

- Developed a full-stack **e-commerce web application** using the MERN stack with features like user authentication, product listing, cart management, and order processing.
- Built a **real-time chat app** using MERN stack and Socket.io, enabling instant messaging and live user status.
- Developed a **Text-to-Image SaaS app** with JWT auth and third-party API integration for dynamic image generation.
- Built and maintained the frontend of the **nnhire(a job portal) Admin Dashboard** using React.js, focusing on responsive UI, data-driven components, and efficient state management for managing users, jobs, and application workflows.

EDUCATION

Master of Computer Applications (MCA)

Swami Rama Himalayan University — 8.4 CGPA

August 2022 - June 2024

Bachelor of Computer Applications (BCA)

Omkarananda Institute of Management and Technology — 6.7 CGPA

August 2019 - June 2022

PROJECTS

JOBHUNT

Live — GitHub

- Built a MERN-based job portal with role-based authentication (JWT, Bcrypt) for recruiters and candidates.
- Implemented resume uploads and media handling using Multer and Cloudinary with Redux Toolkit state management.
- Designed a responsive UI using Tailwind CSS and ShadCN UI with seamless navigation via React Router.

LEARNAI

Live — GitHub

- Built a MERN-based AI chat app with Clerk authentication, chat history, and image-based prompting.
- Integrated OpenRouter API, ImageKit uploads, and deployed frontend/backend using Vercel and Render.

TECHNICAL SKILLS

Languages: Core Java (OOPs), JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, Postman, VS Code, IntelliJ IDEA
